About The Course

Shaping Purpose for Youth is specifically designed for youth ages 16-24 who have difficulty figuring out who they are, and for those challenged with deciding on a career path. They learn how to incorporate their own unique gifts, passions, and values into a "best fit" career.

By the end of the course, participants can:

- Identify top 5 gifts, passions and values
- Use their gifts, passions and values to find a best-fit career or new direction
- Prepare goals that align with their career and the 7 elements of well-being - social, career, location, physical, medical, psychological and financial.
- Create a step-by-step plan to reach their goals
- Be a part of a group community and mentorship for accountability and to stay on track
- Identify ways to increase their day-to-day happiness while reaching their goals

Shaping Purpose is a positive step towards an exciting new chapter for youth.
